## *PILLARS OF TRUST*

It's inevitable in life and in business that your trust will be tested or even shattered. This doesn't have to mean the end of the world or that you can never trust again.

In this presentation, the audience gains a deeper understanding of the four pillars of trust; trusting your intuition, abilities, your worth, and trusting others. Thus, providing them with the tools they need to have more confidence in themselves and others.

## *COURAGEOUS CONVERSATIONS*

As human beings we are conditioned to avoid conflict, to avoid what makes us feel uncomfortable. Conversations perceived as being confrontational are avoided. This puts unnecessary strains on business, work and personal relationships.

This presentation provides a framework, proven method and language to have courageous conversations that lead to a united team, stronger business relationships and deeper personal connections.
